

**Galilean Nights Event ID:** gn1,221

**Number of telescopes:** 8

**Number of organisers:** 15

**Number of attendees:** 500

**Event Report:**

We had a very successful turnout for our Second Annual Night Under the Stars. Being a part of the Galilean Nights increased the prestige of our event and increased our attendance of students and parents to just over 500. We definitely met our goal of increasing basic knowledge of the night-time sky. Our event also allowed us to engage the general public in the educational process.
