

**Galilean Nights Event ID:** gn529

**Number of telescopes:** 4

**Number of organisers:** 10

**Number of attendees:** 50

**Event Report:**

As the day before, the clouds rolled in that morning and threatened our show. Luckily we got a break at the last minute and the clouds moved on right at sunset. Talk about timing. A good crowd showed up even with it looking gloomy all day. Thanks for all that helped out.
