

Galilean Nights Event ID: gn567

Number of telescopes: 5

Number of organisers: 9

Number of attendees: 400

Event Report:

Aster is amateur astronomy group. The night was completely cloudy. We exposure the 20 panels of the exposition "From Earth to the Universe" and the big (5x1m) panel "Cosmic Evolution". The site was an old train station turned to a cultural center. We've annunciated in radio and newspaper.
